 * Describe any serious problems you encountered in this assignment.
 * What was hard, or what should we warn students about in the future?

***********************************************************************
/

Part 3 was the hardest, initially I was having trouble understanding
the logic
Behind the ordering of a treeset.

I feel like this is a big jump from CIT591 based on difficulty and the materials we cover.
Given this is a course designed to be following 591, it would be helpful if there can be
a smoother transition into the materials.
